Information needed:

- Name
- Year graduated from Marquette Middle school
- Name of college or university and the name of your advanced degree/s

***Any information please send to Dianne St. Mary at:
Diandsrb@aol.com***

The above rendering is a glimpse of what has taken place and what is planned to take place. The new HVAC systems are all up and working in all the buildings. (yes, all the old boilers and radiators have also been removed) no more clicking and hissing.

There is a new kitchen in the St. Joe's building where the old kitchen was, just enlarged and upgraded. Room 1 is now storage, and walk-ins for the food service.

The gym is now the cafeteria.

Marquette's auditorium is now considered the 'Fine Arts room' with Mrs. Wood's Art room, band and music room.

Downstairs where the kitchen/cafeteria used to be has now a couple of new classrooms for the 6th grade homerooms and Mr. Adams science room has been upgraded.

Over at the Pre-School (Mother Joseph Center) there are new classrooms for the Kindergarteners and preschoolers.
